"Dating violence" means violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim where the existence of such a relationship shall be determined based on a consideration of the length of the relationship, the type of relationship, and the frequency of interaction between the persons involved.

The "decision-maker" reviews all the evidence and prepares an impartial written responsibility determination as to whether the alleged conduct occurred and provides an opportunity for the parties and their representatives to prepare written questions to be answered by the other party. The decision-maker shall not be the Title IX Coordinator or investigator.

"Domestic violence" includes crimes of violence committed by a person who is a current or former spouse, partner, person with whom the victim shares a child, or who is or has cohabited with the victim as a spouse or partner, by a person similarly situated to a spouse of the victim under Kansas or applicable federal law, or by any other person against an adult or youth victim having protection from such person's acts by Kansas or applicable federal law.

A "formal complaint" means a document filed by a complainant or signed by the Title IX Coordinator alleging sexual harassment against a respondent and requesting that the district investigate the allegation of sexual harassment.

The "investigator" is the person who carries out the investigation after the formal complaint is filed and conducts interviews of the witnesses, collects and documents evidence, and drafts an investigative report.

The Title IX Coordinator's responsibilities include, but are not limited to: developing materials and ensuring professional development occurs for staff involved in Title IX compliance, creating systems to centralize records, gathering relevant data, contacting the complainant (and/or parents or guardians, if applicable) once the district has actual

knowledge of alleged sexual harassment, coordinating the implementation of supportive measures, signing a formal complaint to initiate a grievance process, and ensuring any remedies are implemented.

The Title IX Coordinator, any investigator, decision-maker, or any person who facilitates an informal resolution process shall not have a personal conflict of interest or bias for or against the complainant or respondent. These individuals shall receive training on the definition of sexual harassment; the scope of the education program and activities; how to conduct an investigation, including appeals and informal resolution processes; and how to serve impartially, including by avoiding prejudgment of the facts, personal conflicts of interest, and bias. Decision-makers shall receive training on issues of relevance of questions and evidence, including when questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant. Investigators shall receive training on issues of relevance of questions and evidence in order for them to create investigative reports that fairly summarize relevant evidence.

 - the date and location of the alleged incident, if known.
- The district's investigation (and an explanation of such procedures to students) procedures, including any informal resolution process;
- A statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility will be made by the decision-maker at the conclusion of the investigation;
- Notice to the parties they may have an advisor of their choice and may inspect and review any evidence; and
- Notice to the parties of any provision in the district's code of conduct or policy that prohibits knowingly making false statements or knowingly submitting false information.

If, in the course of an investigation, the investigator decides to investigate allegations about the complainant or respondent that are not included in the notice initially provided, notice of the additional allegations shall be provided to known parties.

Formal Complaint Investigation Procedures

To ensure a complete and thorough investigation and to protect the parties, the investigator shall:

- Ensure that the preponderance of the evidence burden of proof and the burden of gathering evidence sufficient to reach a determination regarding responsibility rests on the district and not the parties;
- Provide an equal opportunity for the parties to present witnesses and evidence;
- Not restrict either party's ability to discuss the allegations under investigation or to gather and present relevant evidence;
- Allow the parties to be accompanied with an advisor of the party's choice;

- Provide written notice of the date, time, location, participants, and purpose of any interview, meeting, or hearing at which a party is expected to participate;
- Provide the parties equal access to review all the evidence collected which is directly related to the allegations raised in a formal complaint, including the investigative report, and the opportunity to respond to that evidence before a determination is made;
- Be impartial and objectively evaluate all relevant evidence without relying on sex stereotypes;
- Not have personal conflicts of interest or bias for or against complainants or respondent;
- Not make credibility determinations based on the individual's status as complainant, respondent, or witness.

Formal Complaint Investigation Report

The investigator shall prepare an investigative report that fairly summarizes relevant evidence and share the report with the parties and their advisors for review and response.

Before completing the investigative report, the investigator must send each party and their advisors the investigative report for review and allow the parties 10 days to submit a written response for the investigator's consideration. The investigator's written report shall include an objective evaluation of all relevant evidence using a preponderance of the evidence standard to determine responsibility.

Decision-Maker's Determination

Upon receiving the investigator's report, the decision-maker must make a determination regarding responsibility and afford each party the opportunity to submit written, relevant questions that the parties want asked of any party or witness, provide each party with the answers, and allow for additional, limited follow-up questions.

The decision-maker must issue a written determination regarding responsibility based on a preponderance of the evidence. The decision-maker's written determination shall:

- Identify the allegations potentially constituting sexual harassment;
- Describe the procedural steps taken, including any notifications to the parties, site visits, methods used to gather evidence, and interviews;
- Include the findings of fact supporting the determination;
- Address any district policies and/or conduct rules which apply to the facts;
- Address each allegation and a resolution of the complaint including a determination regarding responsibility, the rationale therefor, any disciplinary sanctions imposed on the respondent, and whether the remedies are designed to, restore or preserve access for students, or preserve access for employees, to the educational program or activity will be provided by the district to the complainant; and
- The procedures and permissible bases for the complainant and/or respondent to appeal the determination.

A copy of the written determination shall be provided to both parties simultaneously.

The range of disciplinary sanctions and remedies may include, but may not be limited to, supportive measures, short term suspension, long term suspension, expulsion for students, and/or termination for employees. Complainants and respondents shall be treated equitably by providing remedies to a complainant where a determination of responsibility for sexual harassment has been made. The Title IX Coordinator is responsible for the effective implementation of any remedies. If the investigation results in a recommendation that a student be suspended or expelled, procedures outlined in board policy and state law governing student suspension and expulsion will be followed.

If the investigation results in a recommendation that an employee be suspended with or without pay or terminated, procedures outlined in board policy, the negotiated agreement (as applicable), and/or state law will be followed.

Records relating to complaints filed and their resolution shall be maintained by the Title IX Coordinator for seven years.

The decision becomes final on the date the parties receive the results of an appeal, if any appeal is filed, or on the date the opportunity for an appeal expires.

Appeals

The complainant or respondent may appeal the decision-maker's determination regarding responsibility or a dismissal of a formal complaint, on the following basis:

- Procedural irregularity that affected the outcomes;
- New evidence that was not reasonably available at the time that could affect the outcome; and/or
- The Title IX Coordinator, investigator, or decision-maker had a personal conflict of interest or bias against either party that affected the outcome.

The request to appeal shall be made in writing to the Title IX Coordinator within 20 days after the date of the written determination. Appeals shall be on the record and heard by an attorney, an independent hearing officer appointed by the board, or the board. The appeal decision-maker may not be the Title IX Coordinator, the Investigator, or the decision-maker from the original determination.

The appeal decision-maker will issue a written decision within 30 days after the appeal is filed. The appeal decision-maker will describe the result of the appeal and the rationale for the result. The appeal decision-maker shall:

- Review the evidence gathered by the investigator, the investigator's report, and the original decision-maker's determination;
- Notify both parties in writing of the filing of an appeal and give them 10 days after the appeal is filed to submit further evidence in writing;
- Not have a personal conflict of interest or bias for or against complainant or respondent and receive the required training;
- Issue a written decision and the rationale for the decision within 30 days after the appeal is filed;
- Describe the result of the appeal and the rationale for the result in the decision; and
- Provide the written decision simultaneously to both parties and to the Title IX Coordinator.

Informal Resolution Process

At any time during the formal complaint process and prior to reaching a determination regarding responsibility, the district may facilitate an informal resolution process, such as mediation, that does not involve a full investigation and determination of responsibility.

The informal resolution process may be facilitated by a trained educational professional, consultant, or other individual selected by the Title IX Coordinator under the following conditions:

- The parties are provided a written notice disclosing the allegations, the requirements of the informal resolution process, information on when it may preclude the parties from resuming a formal complaint arising from the same allegations;
- At any time prior to agreeing to a resolution, any party has the right to withdraw from the informal resolution process and resume the investigation of the formal complaint and be informed of any consequences resulting from participating in the informal resolution process;
- The parties voluntarily and in writing consent to the informal resolution process; and
- The informal resolution process cannot be used to resolve allegations that an employee sexually harassed a student.

If the matter is resolved to the satisfaction of the parties, the facilitator shall document the nature of the complaint and the proposed resolution, have both parties sign the documentation and receive a copy, and forward it to the Title IX Coordinator. Within 20 days after the complaint is resolved in this manner, the Title IX Coordinator shall contact the complainant to determine if the resolution of the matter remains

acceptable. If the matter is not resolved, or if the individual does not believe the resolution remains acceptable within 20 days after the informal resolution document is executed, the individual or the Title IX Coordinator may proceed with the formal complaint process.

If discrimination or harassment has occurred, the district will take prompt, remedial action to prevent its reoccurrence. The district prohibits retaliation or discrimination against any person for opposing discrimination, including harassment; for participating in the complaint process; or making a complaint, testifying, assisting, or participating in any investigation, proceeding, or appeal.

Use of this complaint procedure is not a prerequisite to the pursuit of any other remedies including the right to file a complaint with the Office for Civil Rights of the U.S. Department of Education, the Equal Employment Opportunity Commission, or the Kansas Human Rights Commission.

Initiation of a complaint of sexual harassment in good faith will not adversely affect the job security or status of an employee, nor will it affect his or her compensation. The filing of a complaint or otherwise reporting sex discrimination including sexual harassment shall not reflect upon the individual's status or grades. Any act of retaliation or discrimination against any person who has filed a complaint or testified, assisted, or participated in any investigation, proceeding, or hearing involving sex discrimination including sexual harassment is prohibited. Any person who retaliates is subject to immediate disciplinary action, up to and including expulsion for a student or termination of employment for an employee.

To the extent possible while still following the above procedures, confidentiality will be maintained throughout the investigation and resolution of a complaint. The desire for confidentiality must be balanced with the district's obligation to conduct a thorough investigation, to provide supportive measures to both parties, to take appropriate corrective action, and to provide due process to the complainant and the respondent.

False or malicious complaints of sexual harassment may result in corrective or disciplinary action against the complainant.

A summary of this policy and the complaint procedures including how to report or file a formal complaint of sex discrimination or sexual harassment shall be posted in each district facility and shall be published in student and employee handbooks, and on the district's website as directed by the Title IX Coordinator. Notification of the policy may include posting informational notices, publishing in local newspapers, publishing in newspapers and magazines operated by the school, or distributing memoranda or other written communications to students and employees. In addition, the district is required to include a statement of nondiscriminatory policy in any bulletins, announcements, publications, catalogs, application forms, or other recruitment materials that are made available to participants, students, applicants, or employees.

Section 24 - Complaints of Discrimination. The district is committed to maintaining a working and learning environment free from discrimination, insult, intimidation, or harassment due to race, color, national origin, religion, sex, age, genetic information, or disability. Except as otherwise provided in this policy and board policies, complaints or any incident of discrimination in any form shall promptly be reported to an employee's immediate supervisor, the building principal, or the district compliance coordinator for investigation and corrective action by the building or district compliance officer. Any employee who engages in discriminatory conduct shall be subject to disciplinary action, up to and including termination.

Discrimination against any individual on the basis of race, color, national origin, sex, disability, age, genetic information, or religion in the admission to, or access to, or treatment, or employment in the district's programs and activities is prohibited. The Assistant Superintendent for Personnel and Operations (905 W. Academy Ave., Maize, KS 67101, 722-0614) has been designated to coordinate compliance with nondiscrimination requirements contained in federal law.

Academy Ave., Maize, KS 67101, 722-0614. More information may be obtained on discrimination on the basis of sex by contacting the Title IX Coordinator.

Complaints by a student should be addressed to the building principal, another administrator, the guidance counselor, or another certified staff member. Any school employee who receives a complaint of such discrimination or harassment from a student shall inform the student of the employee's obligation to report the complaint and any proposed resolution of the complaint to the building principal. If the building principal is the alleged harasser, the complaint shall be reported to the district compliance coordinator.

Complaints alleging discrimination in child nutrition programs offered by the district shall be handled in accordance with the procedures outlined in board policy Article 1, Section 19, and more information may be obtained on procedures for such complaint by contacting the district compliance coordinator. Complaints against the superintendent should be addressed to the board of education. Unless otherwise provided herein, complaints of discrimination will be resolved using the district's discrimination complaint procedures in policy Article 1, Section 19.

The district prohibits retaliation or discrimination against any person for opposing discrimination, including harassment; for participating in the complaint process; or making a complaint, testifying, assisting, or participating in any investigation, proceeding, or hearing.

Complaints about discrimination, including complaints of harassment, will be resolved through the following complaint procedures:

Informal Procedures

Any school employee who receives a complaint of such discrimination or harassment from a student, another employee, or any other individual shall inform the individual of the employee's obligation to report the complaint and any proposed resolution of the complaint to the building principal. The building principal shall discuss the complaint with the individual to determine if it can be resolved. If the matter is resolved to the satisfaction of the individual, the building principal shall document the nature of the complaint and the proposed resolution of the complaint and forward this record to the district compliance coordinator. Within 20 days after the complaint is resolved in this manner, the principal shall contact the complainant to determine if the resolution of the matter remains acceptable. Formal Complaint Procedures

- A formal complaint should be filed in writing and contain the name and address of the person filing the complaint. The complaint should briefly describe the alleged violation. investigation shall be conducted by the building principal, the compliance coordinator, or another individual appointed by the board. The investigation shall be informal but thorough. All interested persons, including the complainant and the person against whom the complaint is lodged, will be afforded an opportunity to submit written or oral evidence relevant to the complaint.

- A written determination of the complaint's validity and a description of the resolution shall be issued by the investigator, and a copy forwarded to the complainant and the accused no later than 30 days after the filing of the complaint.
- Records relating to complaints filed and their resolution shall be forwarded to and maintained in a confidential manner by the district compliance coordinator.
- The complainant may appeal the determination of the complaint. Appeals shall be heard by the district compliance coordinator, a hearing officer appointed by the board, or by the board itself as determined by the board. The request to appeal the resolution shall be made within 20 days after the date of the written resolution of the complaint at the lower level. The appeal officer shall review the evidence gathered by the investigator and the investigator's report and shall afford the complainant and the person against whom the complaint is filed an opportunity to submit further evidence, orally or in writing, within 10 days after the appeal is filed. The appeal officer will issue a written determination of the complaint's validity and a description of its resolution within 30 days after the appeal is filed.

- Know the time the medication is to be regularly administered;
- Be able to articulate any additional special circumstances under which the medication is to be administered;
- Know the length of time for which the medication is prescribed;
- The student shall also demonstrate to the health care provider or the provider’s designee, as applicable, and the school nurse or the nurse’s designee the skill level necessary to use the medication and any device that is necessary to administer the medication. In the absence of a school nurse, the school shall designate a person who is trained to witness the demonstration.

Authorization Required

With regard to prescription medications which are not administered on a regular schedule, the student's health care provider shall prepare a written treatment plan for managing the student's condition, such as asthma attacks or anaphylaxis episodes, and for medication use by the student during school hours. The student's parent or guardian shall annually complete and submit to the school any written documentation required by the school, including the treatment plan prepared by the student's health care provider. Permission forms shall be updated during enrollment.

Employee Immunity

All teachers responsible for the student's supervision shall be notified that permission to carry medications and self-administer has been granted. The school district shall provide written notification to the parent or guardian of a student that the school district and its officers, employees, and agents are not liable for damage, injury, or death resulting directly or indirectly from the self-administration of medication.

Waiver of Liability

The student's parent or guardian shall sign a statement acknowledging that the school district and its officers, employees, or agents incur no liability for damage, injury, or death resulting directly or indirectly from the self-administration of medication and agreeing to release, indemnify, and hold the district and its officers, employees, and agents, harmless from and against any claims relating to the self-administration of medication allowed by this policy.

Section 4 – Immunizations.

In each school year, every pupil enrolling or enrolled in any school for the first time, and each child enrolling or enrolled for the first time in a preschool or day care program operated by a school, prior to admission to and attendance at school, shall present proof that the pupil has received such tests and vaccinations as are deemed necessary. Pupils who have not completed the required inoculations may enroll or remain enrolled while completing the required inoculations if a physician or local health department certifies that the pupil has received the most recent appropriate inoculations in all required series. Failure to complete all required immunizations by the first day of school in October of the current school year shall be deemed non-compliance.

As an alternative to the certification required:

- A. An **annual** written statement signed by a licensed physician stating the physical condition of the child to be such that inoculations would seriously endanger the life or health of the child.
OR
- B. A written statement signed by one parent or guardian that the child is an adherent of a religious denomination whose religious teachings are opposed to vaccinations.

If one of the above documentation of immunizations is not received, a pupil shall be subject to exclusion from school attendance until such time as the pupil shall have complied with the requirements. A written notice will be sent to the parent or guardian stating the reason for exclusion. The exclusion date will be the first day of school in October of the current school year. This policy is pursuant to K.S.A. 72-6262 and 6264, as amended.

The above requirements are not to serve as barriers to immediate enrollment of students designated as homeless or foster children as required by the Every Student Succeeds Act (ESSA) and the McKinney-Vento Act as amended by ESSA. The district shall work with the Department for Children and Families, the school last attended, or other relevant agencies to obtain necessary documentation of inoculations.

Section 5 - Communicable Diseases. Communicable disease as used in this policy shall refer to any infectious or contagious disease as determined by the State Department of Health and Environment or the United States Center for Disease Control. A severe communicable disease shall be defined by said agency or agencies as being life threatening in nature.

Any student, employee and/or administrative staff noted by a physician or the school nurse as having a communicable disease may be required to withdraw from school for the duration of the illness in order to give maximum health protection to other students, employees and administrative staff. The student, employee and/or staff person will be readmitted to regular classes upon termination of the illness, as authorized by their physician.

The Board reserves the right to require a written statement from the student's, employee's and/or staff person's physician indicating that the student, employee and/or staff person is communicably not affected. In the event that a student, employee and/or administrative staff member is absent for more than five consecutive days or the principal has been notified that a student, employee and/or administrative staff member has a communicable disease, the principal shall determine whether a release shall be obtained from the student's, employee's or staff person's physician before they re-enter school.

Decisions regarding the type of education and the setting for provision of educational services for a student or a return to service by an employee and/or staff person with a severe communicable disease of long duration shall be based on the behavior, neurological development, and physical condition of the individual and the expected type of interaction with others in that setting. These decisions are best made using the team approach. This team may include the following: student's, employee's and/or staff person's physician, school nurse and/or county health person, school attorney, superintendent, building principal and/or teacher, and/or any other person(s) associated with the proposed care or educational setting.

In each case involving a student, employee and/or administrative staff member with a severe communicable disease, the Board shall reserve the right to make a final decision regarding the placement of such person after taking into account the recommendations of the health assessment team, the risks and benefits to both the infected individual and to the others in the proposed educational setting. The Board shall consider written recommendations of the staff team as set forth in the preceding paragraph in order to arrive at a final decision.

No information regarding students, employees and/or staff persons with communicable diseases shall be released by district personnel without the student's, employee's and/or staff person's permission or in order to comply with state or federal statutes.

All Board discussions on issues related to students, employees and/or administrative staff members with severe communicable diseases shall be in executive sessions in order to preserve confidentiality of those involved.

 - d. The district is not responsible for student expenses for meals, lodging, and/or travel for BPA students to national competition.

3. Summer Camps/Clinics

Coaches/sponsors who are taking teams to summer camps or clinics are and are using school vehicles are limited to a 250-mile radius. If school vehicles are used, the coach/sponsor needs to schedule that vehicle(s) directly with the transportation department at least 2 weeks in advance and the coach/sponsor is responsible for the mileage rate (fuel and maintenance) as determined by the transportation department. Requests for vehicles less than two weeks in advance will not be accepted. The district will not provide drivers for any vehicles rented for summer camps/clinics.

Section 12 - Philosophy of Discipline.

The Board of Education believes in sound disciplinary policies that are generally in accordance with good educational practice, due process and those policies specifically set forth in this manual and each building principal's handbook. We enthusiastically endorse disciplinary policies and/or procedures that enhance the learning opportunities of USD 266 students.

- A. Students are expected to follow school policies not only during the school day but also while traveling to and from school events and while in attendance at school activities. The law (K.S.A. 72-6114) authorizes suspension and/or expulsion for the violation of school rules/policy.

The district shall cooperate with law enforcement in security matters and shall, as required by law, report criminal acts committed at school, on school property or at school-sponsored activities. State law permits the governing body of any school district, the Superintendent or Principal, through Board policy, to suspend or expel, for 186 school days, any student for major misconduct or persistent disobedience.

A student may be suspended for the remainder of the semester or may be expelled for the rest of the school year, or even through 186 school days that may include the next school year.

School districts are allowed to honor each other's suspensions and expulsions. Examples of major misconduct are listed in the student handbook.

- B. Academic dishonesty is not acceptable. Cheating, defined as copying another student's work and claiming it as your own and plagiarism, defined as the use of another person's original ideas or writing without giving credit to the true author, are both prohibited practices.

Materials taken from electronic sources are covered by this policy. A student who engages in any form of academic dishonesty will be subject to the loss of credit for the work in question, as well as other disciplinary measures.

- C. Corporal Punishment - Corporal Punishment shall not be permitted in the school district.
- D. Bus Discipline - "Laws and Regulations Governing School Pupil Transportation in Kansas" shall be printed in large, plain type and posted in a prominent place in the school bus and all occupants shall adhere to these rules. Violation of these rules will be reported to the school administrator who can deny students the privilege of riding the bus and otherwise subject students who violate the rules to disciplinary action.
- E. Long Term Suspensions/Expulsions - Written reports of the Hearing Officers decision will be provided to the President of the Board of Education. During the suspension/expulsion, students may not be on school grounds or at any school-sponsored activity. If necessary, students will be allowed to take exams and meet with staff at the Educational Support Center.
- F. Student Arrest/Police Custody – In the event a student is removed from a school campus/activity, administration will attempt to contact the parent(s) or guardian(s).

Section 13 - Drugs & Alcohol.

No student shall unlawfully manufacture, sell, distribute, dispense, possess or use illicit drugs, controlled substances (prescribed medications) uncontrolled substances (placebos or over-the-counter substances) or alcoholic beverages on school district property or at school sponsored activities. Conduct which appears to be altered by the use of alcohol, illicit drugs or other controlled or non-controlled substance(s) is also a violation of policy. The medication policy shall apply in those instances where the student must bring prescription drugs or over-the-counter medications to school or school events.

- A. Any student who is selling or trafficking drugs, drug paraphernalia, and/or other controlled substances at school, on school property, or at a school supervised activity shall receive a mandatory expulsion for 186 school days.
- B. Any student who is in possession or uses alcoholic beverages, drugs (not following the medication policy), drug paraphernalia, and/or other controlled substances at school, on school property, or at a school supervised activity will receive one of the following disciplinary actions:
 - 1. **Use or Possession: First Offense.** Law enforcement and parents will be contacted immediately upon verification of the violation. The student will receive at a minimum, a short-term suspension not to exceed 10 school days. Any violation of this policy will

result in the student being noticed for a long term or expulsion hearing as recommended by the principal or principal's designee. At the time of the hearing, administration may recommend that the student, and or legal guardian be afforded the option to have the suspended student meet with a community source (which may include mental health agency counseling program, an alcohol and drug service agency, or a physician) to discuss the student's problem with drugs/alcohol. Upon receipt of written documentation that the student is complying with the recommendation of a licensed substance abuse treatment provider's recommended action, the suspension shall be deferred and the student allowed back in school; however, should the student violate the terms of the agreement upon which the students was allowed to return to school, the balance of suspension shall be re-imposed.

2. **Use or Possession: Subsequent Offenses During the Students Middle School or High School Career.** Parents and law enforcement will be contacted immediately upon verification of the violations. The student will be recommended for expulsion from school for No less than 186 school days.
- C. Prescription medication and over the counter medication not following medication policy (Article V, section 3) may be subject to the same consequences as illegal drugs.
- D. When a pupil exhibits behaviors that may indicate the use of any illegal drugs, alcohol, or other controlled substances - the school will document such behaviors and will conduct appropriate drug testing as needed; confront the pupil and his/her lawful custodian(s) with the documented evidence and recommend: (1) the pupil and lawful custodians enter into a contract with the school to modify the inappropriate behaviors; (2) the pupil be considered for enrollment in a diversion program in lieu of consideration for formal treatment; or (3) the pupil be taken for an intake evaluation for assessment by a qualified alcohol and drug treatment agency.
- E. Should any student seek the guidance or assistance of any staff member for the purpose of improving his/her behavior or responses to the involvement with controlled substances, confidentiality will be respected unless staff personnel believe it is in the student's best interest to notify his/her parent or legal guardian.
- F. Any teacher, officer, or employee who has reasonable cause to suspect that a student may be under the influence of, or that said student has in his or her possession, alcoholic beverages or a controlled substance as defined by law, shall immediately notify the administrator. Neither the Board, the District nor any employee of the District, shall be responsible for any treatment costs incurred by a student as a result of any such assistance or referral to any medical treatment, social service agency or facility, or substance abuse prevention and treatment program.
- G. At the request of the administration, law enforcement officers or licensed private agencies may use trained dogs on school premises. These dogs may be used to identify property, including student property, which may contain illegal or illicit materials and to determine whether materials are present which may threaten the general health, welfare and safety of students and/or district employees.
- H. Drug Testing. A drug or alcohol test may be utilized on school property/school functions. Should a parent suspect their child of drug and/or alcohol abuse, the Maize school district, in support of parents, is prepared to provide free drug screening kits. These kits may be obtained confidentially through the principal's office. Parents are under no obligation to reveal the results of the drug screening. In addition, staff and students will be engaged in practices that are designed to benefit the student as outlined in the student handbook.

Section 14 – Tobacco/Smokeless Tobacco/ Nicotine/Vaporizers. Possession, promotion, and/or use of any tobacco product, smokeless tobacco, vaporizers or any nicotine delivery device used by students is prohibited in any attendance center, in any school-owned vehicle, at school-sponsored events or on the school grounds. Any form of smoking, including the use of cigarettes, cigars, pipes, hookahs, nicotine delivery devices or vaporizers is prohibited and subject to disciplinary consequences. Law enforcement will be notified and a ticket will be issued (up to a \$40.00 fine). Violation of the tobacco policy may result

in the student being suspended.

Section 15 - Hazing. There shall be no initiation of any student in the Maize School System. Hazing of students is strictly prohibited.

Section 16 - Weapons.

- A. Any student who has weaponry of any kind on their person, school property, or at a school function, will have that weaponry confiscated, and may be subject to discipline, including suspension or expulsion from school. Any student who has weaponry, as defined by Kansas state statute, will be expelled from school for one calendar year (KSA 72-6131 et seq.), as amended. Such incidents will be reported to law enforcement when required by law.
- B. The deterrence of the possession of weapons or other dangerous objects is necessary to promote health and safety within the school setting and to provide a school environment conducive to education. When the administration in any school has reasonable suspicion to believe that a weapon or dangerous object is in the possession of either an identified student or unidentified student, or when there has been a pattern of weapons or dangerous objects found at a school, on school property, at a school function or in the vicinity of a school; or when violence involving weapons has occurred at a school, on school property, at a school function, or in the vicinity of the school, the administration is authorized to use metal detection scanning equipment.
- C. Metal detection scanning shall fall under the following classifications:
 - 1. **General:** Scanning all pupils who are present at school on the day of a selected scan.
 - 2. **Partial:** Scanning an identifiable group of students, (i.e. a busload of students, an entire class of students, all students who eat lunch during a given lunch period, all students and non-school personnel attending a school function, etc.)
 - 3. **Individual:** Scanning of a student and/or their personal possessions.

Section 17 – Search and Seizure – School Premises. The pupil has exclusive control over his/her immediate possessions, locker, desk, workstation, and other similar assigned areas of school property as against other pupils. Lockers, desks, workstations and other assigned school property remain the property of the school and may be opened and searched at any time. When school officials have reason to believe that a pupil is involved in illegal, illicit, or disruptive behavior, or behavior that is in violation of school rules, the principal has the authority to conduct a search and confiscate items considered illegal, illicit, disruptive, or a general nuisance to the educational process. Parking on school property is a privilege, not a right. The act of bringing a motor vehicle upon school premises will allow school officials to presume consent by the student, parent or guardian or owner of the vehicle to search the motor vehicle if there is a suspicion to believe that illegal, unauthorized or disruptive materials are contained inside. If the administration has reasonable suspicion that illegal activity is being conducted via a cell phone/communication device, then the administration may search the contents of the phone/device. The district utilizes working canines that are imprinted specifically on illicit substances and firearms. The canines and their trained handlers will periodically conduct unannounced safety sweeps throughout the district.

Section 18 - District Grading Policy. Students in Grades K-1 are not assigned letter grades (A, B, C, D & F) correlated to percentages. Students in Grades 2-12 shall be assigned letter grades (A, B, C, D & F) according to the following percentage achievement: 59 and below=F; 60-69= D; 70-79= C; 80-89=B; 90-100=A.

It shall be each teacher's responsibility to determine the appropriate letter grade for the students assigned to them. Accurate records will be kept in the teacher's grade book and the weight of daily work versus test grades used to determine the letter grade will be consistent and announced at the start of the school term. The method used to determine the letter grade and all class attendance/participation requirements will be explained to the students at the beginning of the course. Letter grades shall not be lowered as punishment. The letter grade assigned by the teacher under these guidelines will not be changed except in the case of an obvious error.

Section 19 - Pupil Placement/Promotion. All students will be assigned to a qualified, licensed teacher.

- A. It is generally expected that pupils will advance one grade level each year. A pupil may be reassigned to a lower or higher grade during the year, or retained or accelerated at the end of a school year. Any promotion or retention will be determined by the building principal after consideration of factors such as:
1. Teacher evaluation.
 2. Standardized achievement tests.
 3. Individual mental maturity tests.
 4. Chronological age.
 5. Social and physical development.
 6. Parental consultation.
 7. Counselor and/or school psychologist reports.
 8. School attendance.

Students should not be retained more than one school year. Special Education students, under normal circumstances, should not be retained.

- B. Student Placement. All Maize USD 266 schools provide exceptional opportunities for students, which contributes to a high-quality education.

Elementary student placement (for grades Kindergarten through 5th grade) is based on the number of students, class size, and siblings. Placement is determined by administration. Elementary schools are not tied to middle and/or high schools in any feeder pattern or other way. Siblings follow siblings in elementary school when they will attend school together.

Middle and high school students (in grades 6 through 12) will be assigned to a designated school based on the address of their primary residence, the address associated with “Family 1” in the student management system (Skyward). Each residential address within the USD 266 district boundary has a corresponding secondary building assignment. Building assignments are aligned in a feeder pattern connecting Maize Middle School to Maize High School and Maize South Middle School to Maize South High School.

Middle school transition: All students enrolled in a Maize USD 266 middle school on or before the current policy began on Oct 24, 2016 will select a high school of preference during their 8th-grade year. Those 8th-grade students may choose Maize High School or Maize South High School as a preference. Eighth-grade students who do not indicate a preference will be assigned to a high school by administration as space allows. Students with younger siblings will be placed in their boundary-assigned high school. Transfer requests will be considered for middle school students only for placement during the 2017-18 and 2018-19 school years. If a returning middle school student is attending the middle school not in his/her boundary, he/she may request to transfer to his/her boundary-assigned school for the 2017-18 and/or 2018-19 school years. The district will consider these transfer requests as student enrollment numbers and building capacity allow. First priority will be given to students requesting this transfer to attend middle school with a younger sibling who will be attending his/her boundary-assigned middle school. Middle school students who wish to apply for a transfer to attend their boundary-assigned school in 2017-18 and/or 2018-19 must complete and submit the online Request for Transfer form to the Coordinator or Secondary Education & Special Programs. The USD 266 administration will review and consider all Requests for Transfer. Comments and documentation of the decision will be recorded and compiled. Request for Transfer decisions will be sent to the applications by the Board Clerk. No in-person hearings are contemplated.

Special programs: Students who require assignment in a special program based on their Individual Education Plan (IEP), which only exists in specific buildings, must be granted an exception to the residential assignment. Such assignment also may apply to other

specialized programs, including ESOL. Students whose programs exist in only one middle and/or high school may be assigned a school opposite of their residential building assignment.

Siblings of students assigned to a special program not located in each middle and/or high school: The location of special programs is dependent on numerous variables which are difficult to predict and occasionally may require program relocation. For students enrolled in a program existing in only one feeder pattern, their siblings may be placed in their non-boundary school, if necessary, to attend with a sibling. Transportation for students in special programs located only in a single secondary school will be provided, as necessary.

Special Program Feeder Pattern:

Functional Applied Academics (FAA) -	MSMS to MSHS
Structured Learning (SL) -	MMS to MHS
English for Speakers of Other Languages (ESOL) -	MMS to MHS

Exemptions:

- For families who qualified and applied for the legacy exemption in November/December 2016, younger siblings may attend the opposite feeder system (the one not associated with primary residence) as elected in the official district form. Students who identified a feeder system will not be eligible to modify their request prior to entering middle school and/or high school, regardless of residence. Transportation: Students granted the legacy exemption must waive district transportation. However, students may ride a bus to their out-of-boundary school from a predetermined bus stop if space is available.
- **For students who are children of employees:** Parents/guardians who are employed by USD 266 or assigned to a USD 266 building by the Sedgwick County Area Educational Services Interlocal Cooperative (SCAESIC) may select a middle and high school feeder pattern (Maize Middle School and Maize High School **OR** Maize South Middle School and Maize South High School) for their child(ren). Consideration will be given to employees who request a different student placement pattern based on primary employment location and/or transportation. Employees may indicate their selection during their child's 5th- and/or 8th-grade year(s). This exemption does not include substitute teachers. Transportation only will be provided to qualified students who live in the district's boundaries and attend their boundary-assigned schools.

For students who make a bona fide move* across district boundary lines during school career while in:

Elementary school	Students will continue at their current elementary school and will attend the middle and high schools associated with their residence. A legacy option is not available.
Middle school	Students <u>must</u> transfer to their boundary-assigned middle school for the following school year. Students will then attend their boundary-assigned high school once they enter 9 th grade.
High school	Students in good standing may remain in their current high school. Students may transfer to their new boundary-assigned high school but not later than the first day of school in the year following the residence change.

* USD 266 Bona Fide Move: To meet the district definition, the following must be provided:

- New residence: Proof of acquisition (purchase agreement and/or residential utility bill)
- Previous residence: Proof of sale/lease (legal contract and/or residential utility bill)

- If at any time the original residence is re-occupied by the student(s), he/she will be transferred to the original school placement.

Hardship

In the event a student wishes to attend a middle or high school in which they are not assigned, a qualifying exemption must be met and approved by the superintendent or his/her designee. If a request is denied, an appeal may be made to the student placement committee

Hardship qualifying exemptions for legacy revocation and intra-district transfer:

- *A divorce occurs and/or the student will be residing in multiple homes due to a legal separation.*
- *The death of an immediate family member occurs creating a significant change in the life of the student.*
- *A family dependent (child or adult), who is or becomes disabled which creates a significant hardship on planned child transportation.*
- *A desire to attend a school with younger siblings.*
- *Recommendation by the administration of the school of residence in documented cases of serious home, school, or community problems making it inadvisable for the student to attend his/her school or residence, with the indication that the transfer would be in the best interest of the District and the student.*
- *An employee, after at least 10 years of service to the district, must end employment due to retirement or health-related issues.*

** Each of these potential hardships must have occurred since November 1, 2016 and must be accompanied by physical proof.*

** Once an exemption is made to revoke legacy or approve an intra-district transfer, neither the receiving nor sending school nor the student may affect a transfer back to the original school.*

The Maize Board of Education anticipates that it will regularly review the policy and boundaries to accommodate district needs, including those related to building capacity and uses, staffing, and funding.

Section 20 - Publishing of School Regulations. All school rules and regulations should be published and made available to all personnel involved and followed in a professional manner.

All school organizations, before being recognized as official, must have an up-to-date set of rules, policies, and/or regulations approved by the administration during the first month of the school year.

Section 21 - Visitors. Because of safety and security issues, only students regularly enrolled in the Maize Schools will be allowed to attend classes.

Section 22 - Transportation.

- A. Pick-up and delivery locations for students being transported by school vehicle will be determined at the beginning of the school year. Only one pick-up and one drop-off location will be allowed at residential addresses or day care provider addresses within school district boundaries. For safety reasons, no pick-up or drop-off service will be made at other business addresses. When USD 266 students or their parents waive district provided transportation to off-campus services, the district will not be responsible for providing transportation cost reimbursement. A change of locations during the school year will be approved for the following reasons:
1. Change of residence within the District
 2. Change in daycare provider within the District
 3. Court order involving visitation rights during the week.

If a student is riding home on a bus other than their regular route, it is the responsibility of the student to have a building administrator's signature on the note sent by the parent before he/she gets on the bus. If a student is going home with another student, both students must have notes to that effect signed by their

parents/guardians and signed by an administrator.

- B. All students who reside within the statutory guidelines qualify for transportation provided by the district. Students who live under this designated distance may be transported to school in district vehicles when space is available.
- C. Maize USD 266 will transport students in wheelchairs using school owned vehicles if the wheelchair meets vehicle transportation standards and does not have any marking that indicates that it is “not for motor vehicle transportation”.

Section 23 - Animals in School. Pets, defined as domestic animals kept for pleasure or companionship, are not permitted inside Maize USD No. 266 facilities. Exceptions are Service Animals as defined by the Americans with Disabilities Act and/or permission may be granted by a district administrator for a specific reason at a specific time.

Students using Service Animals should contact Associate Superintendent for Teaching and Learning at the Educational Service Center.

With the prior approval of the Principal and Associate Superintendent for Teaching and Learning, animals may be brought to school for instructional purposes only. If someone is injured by an animal, the incident shall be immediately reported to the administration by the supervising teacher. The Principal shall notify the appropriate persons.

Section 24 - Students Activity Fund Management. All funds raised by any school organization through any school activities of the group is school money and not the property of the individuals of that group. All funds so raised must be spent in accordance with school regulations and the approval of the group sponsors and the administration. No activity account shall have a negative balance. The Board shall receive a monthly report on all activity accounts. All student activity funds will be audited annually at the same time as the general fund budget. Activity funds from gate receipts or other sources may be deposited directly into a bank account maintained for this purpose. The Board will assume control of all inactive activity funds and disburse those funds to other activity accounts or expend the funds as directed by the Board.

Section 25 – Extracurricular Participation.

- A. Participation in extracurricular activities is voluntary and a privilege. Students who participate in extracurricular activities will be held to a high standard of personal conduct and must abide by Maize USD 266 policies as well as the rules set down by the Kansas State High School Activities Association. These regulations are stated in the District Student Handbook and KSHSAA Handbook. These rules will apply during the regular school year or from the first day of practice through the last day of competition.
- B. Virtual Students. The following stipulations will apply:
 - 1. Virtual classes must be taken through a virtual school, fully accredited by the Kansas State Department of Education. If a virtual school program is provided by USD 266, it is expected that the student enroll through the USD 266 virtual school program.
 - 2. Students will be eligible at the public school in whose district and attendance area they reside.
 - 3. Virtual students enrolling and establishing eligibility by September 20th must be included in the school's annual KSHSAA classification count.
 - 4. The student must be currently enrolled and attending a minimum of one (1) class for the entire school year at the KSHSAA member public school where they desire eligibility. If the student desires participation in music, debate or speech activities, they must be enrolled and attending in that academic course at the school, if such course is offered and the school requires enrollment for participation.
 - 5. Eligibility for virtual students will be established on a semester basis consistent with traditionally enrolled students. Virtual and traditionally enrolled students are required to pass five units of credit each semester to establish scholastic eligibility. The school is responsible to verify the academic progress of the student with the virtual school administrator prior to submitting the student's name on KSHSAA eligibility forms and

rosters.

6. Virtual students must be enrolled in five units of credit (courses) each semester. At the conclusion of the academic semester, they must have completed coursework sufficient to equal a passing grade in each course, consistent with traditionally enrolled students.
7. All students, virtual or traditional, must pass five units of credit in the previous semester to retain eligibility.
8. Like traditionally enrolled students, virtual students must be currently enrolled in five or more courses not previously passed, to establish and retain eligibility each semester.
9. Abide by all policies and guidelines of USD 266 (drug testing, attendance, behavior, code of conduct, etc)
10. Remain a student in good standing.
11. Local school districts retain the authority to approve dual enrollment agreements with virtual schools.

Section 26 – Fundraisers for Students. The School Board believes the primary educational aims of the schools and the needs and interest of their students must be the first consideration at all times. While there is no intent to refuse to cooperate with agencies sponsoring worthwhile fund-raisers, there is very definitely a desire to keep such cooperation within reasonable bounds. The following shall be a guide for determining participation in fundraising activity:

- A. Any school club, teacher, or organization must request and receive permission from the Building Principal to engage in a fund-raising activity. The request must be in writing. All proceeds of any approved sale by students or student groups shall be accounted for to the Building Principal not more than thirty days after such sale.
- B. Participation in fundraisers is optional with the individual schools/students and will not interfere with school instruction.
- C. The fund-raiser is beneficial to youth in educational, civic, social, or ethical development.
- D. The fundraiser makes it possible for individual students to work out contributions by their own efforts and does not invite individual competition.

Section 27 – Food Allergies. It is the joint responsibility of the administration, family, school staff and students to promote a food safe educational environment. Responsibilities of each group are listed in the student handbook.

Section 28 – Wellness Program. USD 266 is committed to providing school environments that promote and protect children’s health, well-being and ability to learn by supporting healthy eating and physical activity. The program is outlined in the District Student Handbook. The District maintains a formally adopted Wellness Plan.

Section 29 – Emergency Safety Interventions. The board of education is committed to limiting the use of Emergency Safety Interventions (“ESI”), such as seclusion and restraint, with all students. The board of education encourages all employees to utilize other behavioral management tools, including prevention techniques, de-escalation techniques, and positive behavioral intervention strategies.

This policy shall be made available on the district website with links to the policy available on any individual school pages. In addition, this policy shall be included in at least one of the following: each school’s code of conduct, school safety plan, or student handbook. Notice of the online availability of this policy shall be provided to parents during enrollment each year.

Use of Emergency Safety Interventions

ESI shall be used only when a student presents a reasonable and immediate danger of physical harm to such student or others with the present ability to affect such physical harm. Less restrictive alternatives to ESI, such as positive behavior interventions support, shall be deemed inappropriate or ineffective under the circumstances by the school employee witnessing the student’s behavior prior to the use of any ESI. The use of ESI shall cease as soon as the immediate danger of physical harm ceases to exist. Violent action that is destructive of property may necessitate the use of an ESI. Use of an ESI for purposes of discipline, punishment or for the convenience of a school employee shall not meet the standard of immediate danger of physical harm.

ESI Restrictions

A student shall not be subjected to ESI if the student is known to have a medical condition that could put the student in mental or physical danger as a result of ESI. The existence of such medical condition must

be indicated in a written statement from the student's licensed health care provider, a copy of which has been provided to the school and placed in the student's file.

Such written statement shall include an explanation of the student's diagnosis, a list of any reasons why ESI would put the student in mental or physical danger, and any suggested alternatives to ESI. Notwithstanding the provisions of this subsection, a student may be subjected to ESI, if not subjecting the student to ESI would result in significant physical harm to the student or others.

Use of Seclusion

When a student is placed in seclusion, a school employee shall be able to see and hear the student at all times.

All seclusion rooms equipped with a locking door shall be designed to ensure that the lock automatically disengages when the school employee viewing the student walks away from the seclusion room, or in case of emergency, such as fire or severe weather.

A seclusion room shall be a safe place with proportional and similar characteristics as other rooms where students frequent. Such room shall be free of any condition that could be a danger to the student, well-ventilated, and sufficiently lighted.

Training

All staff members shall be trained regarding the use of positive behavioral intervention strategies, de-escalation techniques, and prevention techniques. Such training shall be consistent with nationally recognized training programs on the use of ESI. The intensity of the training provided will depend upon the employee's position. Administrators, licensed staff members, and other staff deemed most likely to need to restrain a student will be provided more intense training than classified staff who do not work directly with students in the classroom. District and building administration shall make the determination of the intensity of training required by each position.

Each school building shall maintain written or electronic documentation regarding the training that was provided and a list of participants which shall be made available for inspection by the state board of education upon request.

Notification and Documentation

The principal or designee shall notify the parent the same day as an incident. The same-day notification requirement of this subsection shall be deemed satisfied if the school attempts at least two methods of contacting the parent. A parent may designate a preferred method of contact to receive the same-day notification. Also, a parent may agree, in writing, to receive only one same-day notification from the school for multiple incidents occurring on the same day.

Documentation of the ESI used shall be completed and provided to the student's parents no later than the school day following the day of the incident. Such written documentation shall include: (A) The events leading up to the incident; (B) student behaviors that necessitated the ESI; (C) steps taken to transition the student back into the educational setting; (D) the date and time the incident occurred, the type of ESI used, the duration of the ESI, and the school personnel who used or supervised the ESI; (E) space or an additional form for parents to provide feedback or comments to the school regarding the incident; (F) a statement that invites and strongly encourages parents to schedule a meeting to discuss the incident and how to prevent future incidents; and (G) email and phone information for the parent to contact the school to schedule the ESI meeting. Schools may group incidents together when documenting the items in subparagraphs (A), (B) and (C) if the triggering issue necessitating the ESIs is the same.

The parent shall be provided the following information after the first and each subsequent incident during each school year: (1) a copy of this policy which indicates when ESI can be used; (2) a flyer on the parent's rights; (3) information on the parent's right to file a complaint through the local dispute resolution process (which is set forth in this policy) and the complaint process of the state board of education; and (4) information that will assist the parent in navigating the complaint process, including contact information for Families Together and the Disability Rights Center of Kansas. Upon the first occurrence of an incident of ESI, the foregoing information shall be provided in printed form or, upon the parent's written request, by email. Upon the occurrence of a second or subsequent incident, the parent shall be provided with a full and direct website address containing such information.

Law Enforcement, School Resource, and Campus Security Officers

Campus police officers and school resource officers shall be exempt from the requirements of this policy when engaged in an activity that has a legitimate law enforcement purpose. School security officers shall not be exempt from the requirements of this policy.

If a school is aware that a law enforcement officer or school resource officer has used seclusion, physical restraint, or mechanical restraint on a student, the school shall notify the parent the same day using the parent's preferred method of contact. A school shall not be required to provide written documentation to a parent, as set forth above, regarding law enforcement use of an emergency safety intervention, or report to the state department of education any law enforcement use of an emergency safety intervention. For purposes of this subsection, mechanical restraint includes, but is not limited to, the use of handcuffs.

Documentation of ESI Incidents

Except as specified above with regard to law enforcement or school resource officer use of emergency safety interventions, each building shall maintain documentation any time ESI is used with a student. The documentation shall include all of the following:

- Date and time of the ESI,
- Type of ESI,
- Length of time the ESI was used, and
- School personnel who participated in or supervised the ESI.
- Whether the student has an individualized education program at the time of the incident.
- Whether the student had a section 504 plan at the time of the incident, and
- Whether the student had a behavior intervention plan at the time of the incident.

All such documentation shall be provided to the building principal, who shall be responsible for providing copies of such documentation to the superintendent or the superintendent's designee on at least a biannual basis. At least once per school year, each building principal shall review the documentation of ESI incidents with appropriate staff members to consider the appropriateness of the use of ESI in those instances.

Reporting Data

District administration shall report ESI data to the state department of education as required.

Parent Right to Meeting on ESI Use

After each incident, a parent may request a meeting with the school to discuss and debrief the incident. A parent may request such meeting verbally, in writing, or by electronic means. A school shall hold a meeting requested under this subsection within 10 school days of the parent's request. The focus of any such meeting shall be to discuss proactive ways to prevent the need for emergency safety interventions and to reduce incidents in the future.

For a student with an IEP or a Section 504 plan such student's IEP team or Section 504 plan team shall discuss the incident and consider the need to conduct a functional behavioral assessment, develop a behavior intervention plan, or amend the behavior intervention plan if already in existence

For a student with a section 504 plan, such student's section 504 plan team shall discuss and consider the need for a special education evaluation. For students who have an individualized education program and are placed in a private school by a parent, a meeting called under this subsection shall include the parent and the private school, who shall consider whether the parent should request an individualized education program team meeting. If the parent requests an individualized education program team meeting, the private school shall help facilitate such meeting.

For a student without an IEP or Section 504 plan, the school staff and the parent shall discuss the incident and consider the appropriateness of a referral for a special education evaluation, the need for a functional behavioral assessment, or the need for a behavior intervention plan. Any such meeting shall include the student's parent, a school administrator for the school the student attends, one of the student's teachers, a school employee involved in the incident, and such other school employees designated by the school administrator as appropriate for such meeting.

The student who is the subject of such meetings shall be invited to attend the meeting at the discretion of the parent. The time for calling such a meeting may be extended beyond the 10-day limit if the parent of the student is unable to attend within that time period. Nothing in this section shall be construed to prohibit the development and implementation of a functional behavior assessment or a behavior intervention plan for any student if such student would benefit from such measures.

Local Dispute Resolution Process

If a parent believes that an emergency safety intervention has been used on the parent's child in violation of state law or board policy, the parent may file a complaint as specified below.

The board of education encourages parents to attempt to resolve issues relating to the use of ESI informally with the building principal and/or the superintendent before filing a formal complaint with the board. Once an informal complaint is received, the administrator handling such complaint shall investigate such matter, as deemed appropriate by the administrator. In the event that the complaint is resolved informally, the administrator must provide a written report of the informal resolution to the superintendent and the parents and retain a copy of the report at the school. The superintendent will share the informal resolution with the board of education and provide a copy to the state department of education.

If the issues are not resolved informally with the building principal and/or the superintendent, the parents may submit a formal written complaint to the board of education by providing a copy of the complaint to the clerk of the board and the superintendent within thirty (30) days after the parent is informed of the incident.

Upon receipt of a formal written complaint, the board president shall assign an investigator to review the complaint and report findings to the board as a whole. Such investigator may be a board member, a school administrator selected by the board, or a board attorney. Such investigator shall be informed of the obligation to maintain confidentiality of student records and shall report the findings of fact and recommended corrective action, if any, to the board in executive session.

Any such investigation must be completed within thirty (30) days of receipt of the formal written complaint by the board clerk and superintendent. On or before the 30th day after receipt of the written complaint, the board shall adopt a report containing written findings of fact and, if necessary, appropriate corrective action. A copy of the report adopted by the board shall be provided to the parents, the school, and the state board of education and shall be mailed to the parents and the state department within 30 days of the board's receipt of the formal complaint.

If desired, a parent may file a complaint under the state board of education administrative review process within thirty (30) days from the date a final decision is issued pursuant to the local dispute resolution process.

Section 30 – Release of Student Records. Individual student files are not available for public inspection. Except as provided in IDEA with regard to student records which are student data submitted to or maintained in a statewide longitudinal data system, the custodian of student records shall disclose the student's educational records only as provided for in this policy.

Directory Information

Annual notice shall be given to parents and eligible students concerning their rights with regard to student records. In addition, the custodian of the educational records shall give annual public notice of the class of records the institution has designated as directory information and of the right of the parent or eligible student to opt-out of the release of directory information without prior written consent. The appropriate forms for providing notice shall be on file in the office of the custodian of the educational records. After giving notice, the custodian of records may make directory information available without parental or eligible student's consent.

The custodian of records shall make student recruiting information (including student name, address, and telephone listing) available to military recruiters and postsecondary institutions unless parents or eligible students provide a written request to the district providing that the specified information not be released without prior written consent. Notice of the option to opt-out of the release of recruitment information shall be provided to parents and eligible students in the district's annual notice of rights under the Family Educational Rights and Privacy Act.

For the purposes of this policy, school official means teacher, administrator, other licensed employee or board of education. The district may disclose, without the parents or eligible students' consent, personally identifiable information to school officials with a legitimate educational interest. A school official is a person employed by the school as an administrator, supervisor, instructor, or support-staff member (including health or medical staff and law enforcement unit personnel); the school board (in executive session); a person or company with whom the school has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official

committee such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

The custodian may disclose students' education records to the following persons without the prior consent of the parents:

- Other school officials, including teachers within the district who have legitimate educational interests;
- Officials of other schools or school systems in which the student intends to enroll. The school district will forward student records to such institutions without further notice to the parents or eligible student when the disclosure is initiated by a parent or eligible student or an annual notice provided to parents and eligible students by the district informs them that such records will be automatically disclosed to these institutions for the purposes of enrollment or transfer of the student;
- Authorized persons to whom a student has applied for or from whom a student has received financial aid;
- State and local officials or authorities to whom such information is specifically required to be reported or disclosed pursuant to state statutes;
- Organizations conducting studies for educational agencies for the purpose of developing, validating or administering student tests or programs;
- Accrediting organizations;
- Parents of a student 18 years of age if parents claim the student as a dependent for income tax purposes;
- Appropriate persons if knowledge of any information is necessary to protect the health or safety of the student or other persons in an emergency;
- An agency caseworker or representative of a state or local child welfare agency or tribal organization who has the right to access a student's case plan when such agency or organization is legally responsible for the care and protection of the student and when any further disclosure of such information thereby will be limited in accordance with law; and
- In compliance with a lawfully issued subpoena or judicial order.

Access will be granted to any third party upon written authorization of the eligible student, parent or guardian.

No personally identifiable information contained in personal school records shall be furnished to any person other than those named herein. When there is written instruction from the student's parents, guardian or the eligible student specifying the records, the reasons and the person(s) to whom the release is to be made, a copy of the records to be released shall be made available to the student, parents or guardian upon request. When information is requested in compliance with a judicial order or pursuant to any lawfully issued subpoena, parent(s)/guardian and the student shall be notified of the orders or subpoenas in advance of compliance with the order or subpoena unless:

- the order or subpoena specifically forbids such disclosure; or
- the order is issued in the context of a court proceeding where a parent is a party and the proceeding involves child abuse and neglect or dependency matters.

Nothing contained in this policy shall preclude authorized representatives of the Comptroller General of the United States, the Secretary and an administrative head of an educational agency or state authorities from having access to student or other records which may be necessary in connection with the audit and evaluation of federally supported education programs or the enforcement of the federal legal requirements which relate to these programs.

The data collection by such official with respect to individual students shall not include information (including social security numbers) which would permit the personal identification of students or their parents or guardian on the data collected and provided.

All persons, agencies or organizations desiring access to the records of a student shall be required to sign a form, which shall be kept permanently with the student's file, but only for inspection by the parents/guardian, the student or a school official responsible for record maintenance. The form signed shall indicate the specific educational or other interest of each person, agency or organization has in seeking this information.

Personal information shall be transferred to a third party only on the condition that such party shall not permit any other party to have access to such information without the written consent of the student's parents or the eligible student. The board and staff shall protect the rights of privacy of students and their families in connection with any surveys or data-gathering activities conducted, assisted or authorized by the board or administration.

Regulations established under this policy shall include provisions controlling the use, dissemination and protection of such data.

ARTICLE VI - COMMUNITY

Section 1 - Use of School Facilities. The Board recognizes the importance of community use of school facilities for City of Maize residents and patrons of the school district. The Board encourages such use to an extent which does not interfere with school functions or disrupt the learning environment.

- A. School facilities here defined as any school property or part thereof, may be made available to organized and supervised groups outside the school system, but within the school district by specific permission of the building principal or designee and a completed School Facility Use Application. Use of equipment (kitchen, sound, etc.) will require the attendance of a district employee with operating knowledge. The building will be clean and should be left clean. A fee will be charged for assigned custodial or staff to be payable to Maize USD #266.

Section 2 - Use of School Facilities on Sunday. The Board of Education believes that the school should not make any demands upon pupils' and adults' time on Sundays and, furthermore, that all use of school facilities on Sunday should be discouraged. The Superintendent of Schools, Principal or Designee may grant approval for the use of the facilities.

Section 3 - Assignment of Custodian for Activities. One custodian is to be in the building on the evenings that any school sponsored program is going on (football games, basketball games, plays, etc.) Other times the custodian shall be paid per hour when assigned to an evening of duty. Assignment shall be made by the building Principal or Superintendent of Schools. The custodian on duty shall be attired in the district approved uniform.

Section 4 - Rates for Use of Buildings. The rates for use of the buildings shall be set by the administration. Rates will be based upon actual operating expenses.

Section 6 - Adult Season Activity Tickets. Adult season tickets will be allowed at a rate approved on an annual basis by the Board of Education.

Section 7 – For-Profit Advertising and Signage. The District will permit commercial signage or advertising at certain specified locations on District-owned or leased property in accordance with the provisions of this policy. Signage locations will be determined by the Superintendent or the Superintendent's designee.

All signage or advertising must be consistent with the educational nature of the District. It must be appropriate for people of all ages and may not contain anything of a nature or intent that is obscene, profane, vulgar, prurient, defamatory, abusive, sexual, discriminatory, or that promotes services not suitable for persons under the age of 18. No signage or advertising containing or promoting political, personal, controversial or religious beliefs will be allowed.

Only commercial signage or advertising for products and services that meets the above criteria and has been approved by the Superintendent, or the Superintendent's designee, will be permitted. The Board of Education delegates to the Superintendent, or the Superintendent's designee, the sole discretion to approve or disapprove signage or advertising under this policy.

Before any signage or advertising is authorized pursuant to this policy, the District will enter into a

contract with the advertiser which will specify the terms and conditions of the proposed signage or advertising, including the fee to be paid to the District for the signage or advertising and the term of the contract. Production, installation and maintenance of the signage or advertising will be the sole responsibility of the district and will be included in the contracted price.

Section 8 – District and School Logos. Section 3 - Curriculum Development and Implementation.

- A. Curriculum Development - The licensed staff shall cooperatively develop an integrated, comprehensive Pre K-12 curriculum based on Kansas State Standards. These standards can be found on the Kansas State Department of Education's website (www.ksde.org) A list of curricular materials to be reviewed and the year of review will be maintained by the curriculum and instruction division. No more than one curricular area will be up for adoption in any given year where curriculum materials will be purchased. The Curriculum Plan Timeline can be requested through the Associate Superintendent for Teaching and Learning. The purchase of new curriculum material will be based, in part, on areas of weaknesses as identified by assessment scores.
 - 1. A committee of teachers, administrators and community members will be established for each curricular area being reviewed. Committee members should consist of one teacher per grade level (K-6) and one teacher at the secondary level who specializes in the subject area being reviewed. Additionally, community members will be encouraged to participate in the curriculum review and ideally the committee will have a minimum of one community member.
 - 2. Prior to final selection, patrons will be notified of the review and will be allowed to contribute to the selection process. The administrator in charge of each selection process will facilitate the patron involvement.
 - 3. After patron input, the selection committee will recommend to the superintendent their selection for adoption by the Board.
- B. Implementation/Professional Development Curriculum Council (PDCC) - Those interested in the development of new school curricula should present supporting documents to the PDCC for review. Interested individuals should contact their building PDCC representative or the PDCC chair for specific guidelines on the process. The review process shall be completed prior to the January board meeting in order for implementation of a program for the following year to occur.
- C. Kansas Education Systems Accreditation - Kansas Education Systems Accreditation (hereafter "KESA") is a district-wide accreditation process. Accreditation within this process is ultimately granted by the Kansas State Board of Education. The district school board shall maintain the goal of full accreditation for the district. Good faith efforts shall be made by all staff to implement district school improvement plans. The board shall monitor compliance.

The board is committed to implementing and sustaining the foundational structures defined within the KESA process as well as defining and implementing district-wide goals in alignment with the KESA rubrics. In order for accreditation to be achieved, the board shall commit to school improvement for all district schools, academic achievement for all district students, and results-based professional development for all district staff members. The superintendent shall regularly report to the board on the district's progress toward full accreditation within the 5-year cycle defined as part of the KESA process. The board shall fully inform the public in languages commonly used in the community about district-wide goals, school improvement plans, the progress of school improvement efforts, the accreditation status of the district, and other pertinent information as the board may direct.

D. Information Resources.

1. Media Center Material - A Media Center Material Review Committee will be established when needed at each school. The committee's purpose will be to consider the suitability of media center material for use by students in grades Pre-K through 12. A copy of the guidelines for the committee can be found in Exhibit IV.
2. Video Usage – The District recognizes videos as important educational tools. A well prepared video presentation enhances learning and creates a satisfying learning experience.
 - a. Instructional - Motion Pictures will not be shown in classrooms unless they are used as part of the curriculum and are in the teacher's lesson plans. The following guidelines must be used with regard to moving ratings:
 - i. “G” rated movies may be viewed in all grades without securing written parent permission.
 - ii. “PG” and “PG-13” movies will require written permission by each student's parent before the film may be shown to students under 13. Students who do not have a signed permission slip, for any reason, will not be allowed to view the film. “R” rated movies may not be shown in PreK - 7th grade classrooms. If they are used in 8th - 12th grade classrooms, the teacher must secure a written permission slip signed by each student's parent, before showing the film. The permission slip should be sent in a timely manner prior to the viewing of the film. Students who do not have a signed permission slip, for any reason, will not be allowed to view the film. They will be given an alternative assignment, which will give them the information missed in the film.
 - b. Entertainment – Videos produced and viewed for entertainment purposes should be limited at school and on activity trips. Prior to the showing, teachers will notify parents of the video title and rating through their weekly newsletter or a note. All videos (including those provided by students/parents) should be submitted to the teacher/sponsor in a timely manner prior to student viewing/trips. It is the responsibility of the teacher/sponsor to use their professional judgment in determining if a video is appropriate for a school-sponsored activity. When using videos for entertainment purposes, every effort must be made to give it educational value, such as adaptation, character, or value study.
3. On-line services/internet access/Website posting - Electronic information research skills are now fundamental to preparation of citizens and future employees during an Age of Information. The Board expects the staff will blend thoughtful use of such information throughout the curriculum and that the staff will provide guidance and instruction to students in the appropriate use of such resources.

Section 4 – Outside Vendor Based Curriculum/Instruction. Outside agencies delivering non-school based approved curriculum will not have access to school facilities.

**EXHIBIT I - BOARD POLICY

Each attendance center shall conduct all drills required by state statute as well as additional drills scheduled by the district crisis team. Drills will include: fire evacuation, weather emergency, lockdown, modified lockdown, off-site evacuation, and active shooter response.

Building Crisis Plan

1. Crisis plans should be designed for the protection of students, employees, facilities, and equipment.
2. All schools, the District office, and other District building sites must have a Crisis Plan.
3. Each school crisis plan should clearly establish and delegate authority and responsibility.
4. The District crisis plan should provide communication with and advice to the Maize Board of Education about any major emergencies or disasters at the earliest possible time.
5. Each school crisis plan and the District crisis plan should describe administrative chain of command. These plans will provide a specific structure of administrative personnel to make appropriate action decisions.

7. Employees, parents and the public should be kept informed of crisis preparedness by the school district.

Other Building Associated Events

(Sit Down, Walkout)

In the event that students/staff would initiate a disruption that would interfere with the loss of a regular instructional day, school (for the respective school) will be immediately canceled. Parents will be notified in the most efficient manner and transportation services will be provided for those students in need of the service. Time lost from school will be made up at the end of the school year.

**Transportation Associated Events and
Events Occurring at Locations Off School Property**

The *staff member* who has primary responsibility for school sponsored events away from the school is expected to *account for all the students* under their guidance in the event that an unusual circumstance would occur. They should use their best judgment to provide further protection for their students and in most situations will have at least one other staff member (usually a bus driver) from whom to elicit help. If an unusual circumstance should occur, the staff member responsible for the event should follow the directions of the person responsible for the activity to *provide safe shelter* for the students. When possible, one of the staff members should *notify their supervisor* as soon as possible.

EXHIBIT III - BOARD POLICY

MAIZE DISTRICT SCHOOLS BLOODBORNE PATHOGENS EXPOSURE CONTROL POLICY

Standard Precautions

A wide variety of viruses and bacteria are considered to be blood-borne pathogens, capable of infection by entering the body through non-intact skin and mucous membranes. Some bloodborne pathogens encountered in the school environment are the Human Immunodeficiency Virus (HIV), Hepatitis B Virus (HBV), Hepatitis C Virus (HCV), Hepatitis D Virus (HDV), Hepatitis G Virus (HGV), Cytomegalovirus (CMV), and Parvovirus B 19. The exposure control plan is a measure designed to safeguard employees against these health hazards and incorporates major features of Universal Precautions (designed to reduce the risk of exposure to bloodborne pathogens) and Body Substance Isolation (designed to reduce the risk of transmission of pathogens from moist body substances). Thus, Standard Precautions is a general infection control procedure that considers all persons as potentially infectious and requires the use of barriers or protective measures when dealing with the following:

- blood,
- all body fluids, secretions, and excretions except sweat, regardless of whether they contain visible blood,
- non-intact skin,
- and mucous membranes.

Disease transmission can occur when there is direct contact with the blood or body fluids of an infected person. In the school setting, transmission would occur most likely through one of the following events:

- direct contact with infectious body fluids to open skin lesions on the employee,
- direct contact with infectious body fluids to the employee’s mucous membranes, and
- puncture wounds with a contaminated object.

The Bloodborne Pathogens Exposure Control Plan of Maize District Schools is reviewed annually and updated as needed. Procedures are found in the Employee Handbook.

1. Exposure Determination

Personnel with an increased risk of exposure to blood or other infectious materials are:

Job Classification	Tasks/Procedures
Nurses Nurse Substitutes Health Paras	Primary First Aid for Injuries Dressing changes/Wound Care Other invasive procedures
Staff in classroom with <ul style="list-style-type: none"> ● HBV Carrier; ● *students exhibiting behaviors such as biting, scratching, self-mutilation, and drooling; ● *and/or assisting with urinary catheters, feeding tubes, tracheotomies, and amplification equipment 	Classroom Management and assisting students with health care procedures where contact with body fluid that might contain blood is possible.
Custodial staff/ Maintenance	Cleaning after bodily fluid spills/ Waste Management
Laundry Personnel	Soiled towels

Personnel with a lesser risk of exposure to blood or other infectious materials are:

Job Classification	Tasks/Procedures
Teachers/Coaches Administrators Food Service	Exposure to pathogens via injuries, sharps, glass; blood streaked vomitus, sputum, urine, feces; and other contaminated equipment.

2. Implementation of Standard Precautions

Standard precautions will be observed at each facility in order to prevent contact with blood or other potentially infectious materials. All blood or other body fluids will be considered infectious regardless of the perceived status of the source individual. Work practice controls will be utilized. Copies of the OSHA standards and District Exposure Control Plan will be located in the employee handbook.

A. Hand Washing

- Hand washing is the first line of defense in the prevention of the spread of infection.
 - Hands must be washed after gloves are used.
 - Jewelry on the wrist and hands cannot be effectively cleaned and can tear gloves, so should be removed.
 - Nails must be kept at a reasonable length, free of chipped polish, and residuals removed from beneath them.
- Procedure for Hand Washing
 - Ensure that each hand sink is supplied with soap pump and disposable paper towels/hand dryers. Instant hand sanitizers (allow hands to air dry when using) or germicidal towelettes should be provided where water is not available.
 - Dispense soap into wet hands.
 - Vigorously rub hands together for one minute, paying particular attention to nails, cuticles, and spaces between fingers. Wash hands above the wrist.
 - Thoroughly rinse hands.
 - Dry hands using a disposable towel/hand dryer. Avoid use of non-disposable towels. Turn off faucet with towel.

B. Barriers include any device or material used for protection from contact with body fluids. Barriers are to be used by all personnel to protect from possible contamination by spills, splashes, and airborne droplets. Gloves and CPR masks can be obtained from the nurse.

- Gloves
 - Gloves should be worn to protect personnel. Therefore, gloves should be worn when exposure to body tissue, secretions, or excretions is possible.
 - Maintain a supply of approved non-latex gloves in a readily accessible location. Latex gloves are to be avoided due to the increase number of individuals with latex sensitivity. A supply is stored in the nurses office.
 - Gloves (single-use) shall be removed by turning inside out at the site of use, followed by properly discarding in the appropriate container. (Single-use is defined as use for one procedure, on one individual, in a specified area).
 - If the glove is torn, it must be removed as quickly as safety permits and be replaced, washing hands in-between.
 - Utility gloves must be decontaminated before reuse. If cracked, peeling, torn, punctured, dissolved or deteriorating in any way, they are to be discarded.
- Masks and Protective Eye Wear
 - Masks and safety glasses should be worn if danger of splashing from potentially infectious materials exists.
 - Masks and safety goggles are disposed of if used.
- CPR Micro Shield
 - A shield is advised in administering CPR. A CPR shield is stored in the nurses office and with each AED. Another is located in each building's crisis management first aid kit. Buses will have a CPR shield available for use.

C. Scheduled Cleaning

It shall be the responsibility of the custodial staff assigned to each building to see that each work site and building in the district is maintained in a clean and sanitary condition.

- All equipment and environmental and working surfaces shall be cleaned and decontaminated with a district approved disinfectant or other appropriate disinfectant as soon as feasible after contact

with blood or other potentially infectious materials (OPIM). Carpeted areas can be cleaned with general all-purpose carpet cleaning solution. Cleaning equipment should then be decontaminated.

- Trash receptacles are to be emptied and inspected for contamination daily. All bins, containers, and wastebaskets shall be cleaned and decontaminated at least once a week, or as soon as feasible upon notice of visible contamination.
- Broken glassware shall not be picked up by hand, but by using a broom and dustpan, tongs, vacuum cleaner or other mechanical means. These instruments are to be disinfected immediately after such use.
- Carpeted classrooms are to be vacuumed every other day or as often as needed.
- Solid floor areas are to be mopped daily with a disinfectant germicidal soap solution.
- Counter tops and sinks in classroom or wet areas are to be cleaned and disinfected daily. Desktops are to be disinfected upon request.
- General Restrooms and Nurse's Offices
 - Floors are to be cleaned daily with a disinfectant germicidal soap.
 - Work surfaces, counters, lavatories, and commode seats and surfaces are to be disinfected with a district approved disinfectant.
 - Walls are to be cleaned weekly or as needed with a disinfectant germicidal detergent (DGD).
- Locker Rooms and Showers
 - Floor areas are to be cleaned daily with a DGD or other approved solution.
 - Training room tables and other working surfaces are to be disinfected daily with the district approved disinfectant.
 - Shower floors, walls, and shower stacks are to be cleaned with Shower Foam or other approved solution daily.
- Any surface visibly contaminated with blood or OPIMs are to be cleaned and disinfected as soon as possible.

D. Laundry

The district staff will use Standard Precautions with all soiled or contaminated laundry. Any contaminated items which can be laundered will be bagged at the site of the contamination and handled as little as possible. If the items are wet, leak-proof containers shall be used. Such items shall not be sorted or rinsed at the site of the contamination. The bags shall be deposited in the appropriately labeled receptacle in the building or given to the parent at the end of the day if student personal property. Any employee who comes into contact with contaminated items or laundry shall wear gloves and other personal protective equipment as deemed necessary or appropriate for protection. Receptacles will then be decontaminated with the district approved disinfectant.

E. Potential Infectious Equipment and Handling Procedures

- Sharps are defined as any instrument, device or material capable of producing a puncture or laceration. This includes lancets, syringes, needles, X-Acto knives, knife blades, glass, etc.
 - Sharps will not be bent, recapped, removed, sheared, or purposely broken.
 - Place immediately in red sharps container. Maize will utilize the mail order/return for sharps containers. Sharps containers are located in the nurse's office. When full, they will be returned in the box provided by the sharps container company.
 - Sharps will be released into an impervious container using the "no touch" technique. For example, hold X-acto knife over the opening of appropriate container and unscrew, letting blade fall into container.
 - Broken glass will be swept into dustpan and disposed of in a puncture resistant container. The dustpan and broom will need to be decontaminated and trash double bagged.
- Contaminated Equipment - Equipment Contaminated with Blood
 - Rinse with water.
 - Clean with a district approved disinfectant or other manufactured suggested bactericidal product.
 - Contaminated disposable equipment will be discarded in an impervious container.
- Blood Spills - Cleaning and Disinfecting

- Wear disposable gloves during entire clean-up.
- Use disposable towels to absorb spills. Place towels in a plastic bag.
- Using clean disposable towels, wipe and clean soiled areas with district provided cleanser. Again place the towels in a plastic bag. Spray surface with a district approved disinfectant and allow to air dry.
- Remove gloves from top down so that gloves will be removed inside out.
- Put gloves in plastic bag with used disposable towels and seal bag. Place bag in plastic lined trash can. Any blood or bodily fluids should be dry and then they are able to be disposed of in the regular waste.
- Wash hands thoroughly.
- Vomitus/Sputum - Cleaning and Disinfecting
 - Wear disposable gloves during entire procedure.
 - Cover vomitus with district approved absorbent material. Follow manufacturer's instructions.
 - Place material in a plastic bag.
 - Tools used during procedure should be placed in a separate plastic bag until they can be properly disinfected.
 - Wash area with district provided cleanser. Spray surface with a district approved disinfectant. If area is on carpeting, use an appropriate disinfectant suitable for carpeting.
 - If necessary, use disposable towels to blot up solution and dispose in plastic bag.
 - Put gloves in a plastic bag, tie shut and take directly to trash dumpster.
 - Wash hands thoroughly.
- Urine/Feces - Cleaning and Disinfecting
 - Wear disposable gloves during entire clean-up.
 - Use disposable towels to absorb the spill. Place the towels in a plastic bag.
 - Using clean disposable towels, wipe and clean soiled areas with district provided disinfectant. Put gloves in a plastic bag with used disposable towels and seal bag and take directly to trash dumpster.
 - Wash hands thoroughly.
- Feminine Hygiene Products
 - Discarded feminine hygiene products are not considered within the definition of regulated waste. However, special care should be used when handling these products and waste containers at all times. This includes the wearing of appropriate gloves.
 - Feminine hygiene waste products will be discarded into waste containers which are properly lined with a plastic bag. These plastic bags will be tied, placed in another plastic bag and disposed of daily and the containers disinfected on a daily basis. Follow previous explained procedures for cleaning and disinfecting if visible blood is present.

3. Hepatitis B. Vaccine

All personnel in the increased risk of exposure category will be offered the Hepatitis B Vaccine. Additionally, employees who work where special circumstances exist, such as biting or scratching, or employees with medical conditions such as severe skin disease that might facilitate transmission will be offered the Hepatitis B Vaccine.

Persons who render first aid only as a collateral duty, responding solely to injuries from workplace incidents (generally at the location where the incident occurs), will be offered the vaccine when an accidental injury occurs and possible blood contamination is transferred to mouth, eyes, nose or open skin, upon recommendation of their physician. Exposure will be reported to the nurse and principal immediately, a Post-Exposure Evaluation Form completed, and the incident will be reported by telephone and then in writing to the Supervisor. That employee will be notified to seek medical management within 48 hours.

4. Training

A. Training for new employees will include an explanation of:

1. The OSHA standard for Bloodborne Pathogens.
2. Epidemiology and symptomatology of bloodborne disease.
3. Modes of transmission of bloodborne pathogens.

4. This Exposure Control Plan, (i.e. points of the plan, lines of responsibility, how the plan will be implemented, etc.)
5. Procedures which might cause exposure to blood or other potentially infectious materials at this facility.
6. Control methods which will be used at the facility to control exposure to blood or other potentially infectious materials.
7. Personal protective equipment available at each facility.
8. Post exposure evaluation and follow-up.
9. Signs and labels used at the facility.
10. Hepatitis B Vaccine program at this facility.

Time will be allowed for questions and answers.

B. All new employees will be trained prior to initial assignment. Annual updates will be conducted for all returning employees.

C. Records

- Training records will be maintained for the previous three years of training and will include:
 - Dates of all training sessions.
 - Designated Formal or Review training.
 - Name and job title of instructor
 - Name and job titles of employees attending the training session.
- Medical records pertaining to vaccination or exposure evaluations will be retained for the duration of employment plus 30 years.

Hepatitis B Vaccination Policy

Those at occupational risk of Hepatitis B viral (HBV) infection have been identified by the U.S. Centers for Disease Control. Persons at substantial risk of HBV infection who are demonstrated or judged likely to be susceptible should be vaccinated. Staff of nonresidential day-care programs (e.g., schools, sheltered workshops for the developmentally disabled) attended by known HBV carriers have a risk of HBV infection comparable to that among health-care workers and therefore should be vaccinated.

The risk in institutional environments is associated with blood exposure, bites, contact with skin lesions, and other infective secretions. Persons in casual contact even with carriers in settings such as schools and offices are at minimal risk of HBV infections, and vaccine is not routinely recommended for them.

Unless special circumstances exist, such as biting or scratching or medical conditions such as severe skin disease that might facilitate transmission, vaccination is not indicated.

Only medical personnel and those persons who are identified under the category of “increased risk” will be offered the Hepatitis B vaccine free of charge by the school district. This does not negate the recommendation that all concerned persons should seek their physician’s advice and arrange with them for obtaining the Hepatitis B vaccine when needed as they do with the Diphtheria/Tetanus vaccine.

HEPATITIS B VACCINE DECLINATION FORM

I understand that due to my occupational exposure to blood or other potentially infectious materials I may be at risk of acquiring Hepatitis B virus (HBV) infection. I have been given the opportunity to be vaccinated with Hepatitis B vaccine, at no charge to myself. However, I decline Hepatitis B vaccination at this time. I understand that by declining this vaccine, I continue to be at risk of acquiring Hepatitis B, a serious disease. If in the future I continue to have occupational exposure to blood or other potentially infectious materials and I want to be vaccinated with Hepatitis B vaccine, I can receive the vaccination series at no charge to me.

Media-Center Material Review Committee (MCMRC)

Each building's site council will serve as the **Media-Center Material Review Committee** (if needed). Their purpose will be to **consider the suitability of media-center material** for use by students in grades pre K-12.

The MCMRC will consider only concerns which are filed with the principal or chairperson and which are accompanied by the Request for Reconsideration of Library Materials form filled out by the person or persons issuing the concern.

The committee will not be limited to, but will use the following criteria in making its recommendations as to the suitability of material.

1. Overall purpose
2. Timeliness or permanence
3. Importance of subject matter
4. Quality of the writing and production
5. Readability and popular appeal
6. Authoritativeness
7. Reputation and significance of the author, artist, composer, producer, and publisher
8. Age of students at which they will normally use the material

The MCMRC should keep in mind that it is a *recommending* body. Its findings should be submitted in writing to the building principal with a copy going to the person or persons initiating the concern. The building principal will then make a decision concerning the questionable material. It should be understood that any decision made by the principal may be appealed to the superintendent and/or the Board of Education.

EXHIBIT V -- BOARD POLICY
FAMILY AND MEDICAL LEAVE PLAN

Family and medical leave as required by federal law shall be granted for a period of not more than 12 weeks during a 12-month period. For purposes of this policy, a 12-month period shall be defined as a fiscal year beginning on July 1 and ending the following June 30. Spouses who are eligible for FMLA leave and are both employed by the district may be limited to a combined total of 12 weeks of leave during any 12-month period if the leave is taken for birth of the employee's son or daughter or to care for the child after birth, for placement of a son or daughter with the employee for adoption or foster care or to care for the child after placement, or to care for the employee's parent with a serious health condition.

Leave is available because of:

1. the birth of a son or daughter of the employee and to care for the son or daughter
 2. the placement of a son or daughter with the employee for adoption or foster care
 3. the need to care for a spouse, son, daughter or parent of the employee because of a serious health condition
 4. a serious health condition of the employee that prevents the employee from performing the job functions. (Leave for reason 1 or 2 must be taken within 12 months of birth or placement.)
 5. any qualifying exigency arising out of the fact that the employee's spouse, son, daughter, or parent is a covered military member on active duty (or has been notified of an impending call or order to achieve active duty) in support of a contingency operation; and
 6. the need to care for a covered service member with a serious injury or illness if the employee is the spouse, son, daughter, parent, or next of kin of the service member.
- Eligible employees are, for reason (6) only, entitled to a combined total of 26 workweeks of leave during a 12-month period.

(Leave for reasons 1 or 2 must be taken within 12 months of the date of birth or placement of the child.)

The leave shall normally be unpaid leave. However, if the employee has any paid vacation, personal, sick or disability leave that is available for use because of the reason for the leave, the paid leave shall be used concurrently with the annual family and medical leave. The Superintendent will notify the employee prior to or during the leave period that the leave has been designated as paid family and medical leave. The employee is eligible for family and medical leave upon completion of 12 months of service in the District and employed at least 1250 hours during the preceding year.

During the period of any unpaid family and medical leave the Board shall continue to pay the employer's share of the cost of group health benefits in the same manner as paid immediately prior to the leave. Any employee portion of the cost shall be paid by the employee to the Clerk of the Board on the payroll date or other time as the employee and Superintendent may agree. The Board may terminate group health coverage if the employee payment is not received within 30 days of the due date.

When leave is foreseeable, the employee shall give written notice 30 days in advance. If leave is not foreseeable, notice will be given as soon as practicable.

Upon the employee providing notice of need for leave, the employer will notify the employee of:

- A. The reasons that leave will count as family and medical leave.
- B. Any requirements for medical certification.
- C. Employer requirement of substituting paid leave.
- D. Requirements for premium payments for health benefits and employee responsibility for repayment if employer pays employee share.
- E. Right to be restored to same or equivalent job.
- F. Any employer required fitness-for-duty certifications.

The Superintendent may require an instructional employee to continue leave until the end of a semester if the leave begins more than five (5) weeks before the end of a semester, lasts more than three (3) weeks and the return would occur during the last three (3) weeks of the semester.

Leave for reason 1 or 2 must be taken within 12 months of the date of birth or placement of the child. Family leave for reasons 1 or 2 may not be used intermittently or on a part-time basis without the prior approval of the superintendent.

If the leave is for a reason other than the employee's serious health conditions or for a qualifying exigency

as described in section (5) above, the Superintendent may require an instructional employee to continue leave until the end of a semester, if:

- A. The leave begins in the last five (5) weeks of a semester, will last more than two (2) weeks and the return to work would occur in the last two (2) weeks of a semester, or
- B. The leave begins in the last three (3) weeks of a semester, and lasts more than five (5) days.

Exhibit VI Copyright Guidelines

It is the intent of the Maize School District to adhere to the provisions of the U.S. Copyright Law (Title 17, United States Code, Section 101, et. seq.) and other relative federal legislation and guidelines related to the duplication, retention and use of copyrighted materials. Employees who willfully disregard copyright laws are in violation of BOE policy and do so at their own risk and assume all liability. Copyright policy is applied to all copyrighted materials, including print, videos and/or off-air recording, logos, illustrations, graphics, photographs, digital images, music, and computer software. Educational use exempts certain performances and displays from copyright infringement. All of the following criteria must be satisfied for face-to-face teaching, also called an educational exemption, to apply:

- The showing must be made by, at the direction of, or under the actual supervision of an instructor.
- The movie must directly relate to the curriculum and be of material assistance to the content being taught.
- The showing must take place in a classroom setting with only the enrolled students attending.
- The movie being used must be a legitimate copy, lawfully made under the Copyright Act and not taped from a legitimate copy or taped from television.

Fair use permits certain use of copyrighted material, without permission of the copyright holder, that ordinarily would be considered copyright infringement. when the following four factors are met:

1. The purpose and character of use, including whether such use is of a commercial nature or is for nonprofit educational purposes (how it will be used).
2. The nature of the copyrighted work (various formats, e.g. textbooks, workbooks, tests, poetry, etc.).
3. Amount of copyrighted work used (usually 10 percent limit).
4. Effect on the potential market for or value of the copyrighted work (Will the owner suffer unreasonable financial loss?).

Assuming the use is for classroom instruction, the guidelines below explain what is permitted and prohibited for each format.

Exhibit VII Homeless Student Regulations

Homeless students shall, by definition, include the following:

1. Children and youth who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; or are abandoned in hospitals.
2. Children and youth who have a primary nighttime residence that is a public or private place not designated for or ordinarily used as a regular sleeping accommodation for human beings.
3. Children and youth who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings.
4. Migratory children who meet one of the above-described circumstances.

Enrollment/Placement

The district, according to the child's or youth's best interest, shall either continue the child's or youth's education in the school of origin for the duration of homelessness in any case in which: 1) a family becomes homeless between academic years or during an academic year; and 2) for the remainder of the academic year, if the child or youth becomes permanently housed during an academic year; or enroll the child or youth in any public school that non-homeless students who live in the attendance area in which the child or youth is actually living are eligible to attend.

School Stability

In determining the best interest of the child or youth, the district homeless student liaison shall:

1. presume that keeping the child or youth in the school of origin is in the child's or youth's best interest, except when doing so is contrary to the request of the child's or youth's parent or guardian, or (in the case of an unaccompanied youth) the youth;
2. consider student-centered factors related to the child's or youth's best interest, including factors related to the impact of mobility on achievement, education, health, and safety of homeless children and youth, giving priority to the request of the child's or youth's parent or guardian or (in the case of an unaccompanied youth) the youth;
3. if, after conducting the best interest determination based on consideration of the presumption in clause (1) and the student-centered factors in clause (2), it is determined that it is not in the child's or youth's best interest to attend the school of origin or the school requested by the parent or guardian, or (in the case of an unaccompanied youth) the youth, provide the child's or youth's parent or guardian or the unaccompanied youth with a written explanation of the reasons for its determination, in a manner and form understandable to such parent, guardian, or unaccompanied youth, including information regarding the right to appeal such determination; and
4. in the case of an unaccompanied youth, ensure that the district homeless student liaison assists in placement or enrollment decisions under this subparagraph, gives priority to the views of such unaccompanied youth, and provides notice to such youth of the right to appeal.

Immediate Enrollment

The school selected shall immediately enroll the homeless child or youth, even if the child or youth:

1. is unable to produce records normally required for enrollment, such as previous academic records, records of immunization and other required health records, proof of residency, or other documentation; or
2. has missed application or enrollment deadlines during any period of homelessness.

Relevant Academic Records

The enrolling school shall immediately contact the school last attended by the child or youth to obtain relevant academic and other records.

Relevant Health Records

If the child or youth needs to obtain immunizations or other required health records, the enrolling school shall immediately refer the parent or guardian of the child or youth, or (in the case of an unaccompanied

youth) the youth, to the district homeless student liaison, who shall assist in obtaining necessary immunizations or screenings, or immunization or other required health records.

Records

Any record ordinarily kept by the school, including immunization or other required health records, academic records, birth certificates, guardianship records, and evaluations for special services or programs, regarding each homeless child or youth shall be maintained so that the records involved are available, in a timely fashion, when a child or youth enters a new school or school district and in a manner consistent with the Family Educational Rights and Privacy Act. See Article I, Section 21.

Enrollment Disputes

If a dispute arises over eligibility, school selection, or enrollment in a school:

1. the child or youth shall be immediately enrolled in the school in which enrollment is sought (whether sought by the parent, guardian, or unaccompanied youth), pending final resolution of the dispute, including all available appeals;
2. the parent or guardian of the child or youth or (in the case of an unaccompanied youth) the youth shall be provided with a written explanation of any decisions related to school selection or enrollment made by the school, the local educational agency, or the State educational agency involved, including the rights of the parent, guardian, or unaccompanied youth to appeal such decisions; and
3. the parent, guardian, or unaccompanied youth shall be referred to the district homeless student liaison, who shall carry out the dispute resolution process as expeditiously as possible after receiving notice of the dispute.

Placement Choice

The choice regarding placement shall be made regardless of whether the child or youth lives with the homeless parents or has been temporarily placed elsewhere.

Information about a homeless child's or youth's living situation shall be treated as a student education record, and shall not be deemed to be directory information, as outlined in FERPA.

Contact Information

Nothing shall prohibit the district from requiring a parent or guardian of a homeless child or youth to submit contact information.

Definition

The term "school of origin" means the school that a child or youth attended when permanently housed or the school in which the child or youth was last enrolled, including a preschool. When the child or youth completes the final grade level served by the school of origin, the term "school of origin" shall include the designated receiving school at the next grade level for all feeder schools.

Comparable Services

Each homeless child or youth shall be provided services comparable to services offered to other students in the school selected, including:

- 1) Transportation services;
- 2) Educational services for which the child or youth meets the eligibility criteria, such as services provided under title I of the Elementary and Secondary Education Act of 1965 or similar State or local programs, educational programs for children with disabilities, and educational programs for English learners;
- 3) Programs in career and technical education;
- 4) Programs for gifted and talented students; and
- 5) School nutrition programs.

If applicable, the district shall coordinate with state and local housing agencies responsible for developing the comprehensive housing affordability strategy to minimize educational disruption for children and youths who become homeless.

The coordination required shall be designed to:

- 1) ensure that all homeless children and youths are promptly identified;
- 2) ensure that all homeless children and youths have access to, and are in reasonable proximity to, available education and related support services; and
- 3) raise the awareness of school personnel and service providers of the effects of short-term stays in a shelter and other challenges associated with homelessness.

Homeless Children and Youths With Disabilities

For children and youths who are both homeless and eligible for services under the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.), the district shall coordinate the provision of services under these regulations with the provision of programs for children with disabilities served by the district and other involved local educational agencies.

- 7) enrollment disputes are mediated in accordance with these regulations;
- 8) the parent or guardian of a homeless child or youth, and any unaccompanied youth, is fully informed of all transportation services, including transportation to the school of origin, and is assisted in accessing transportation to the school that is selected;
- 9) school personnel providing services under these regulations receive professional development and other support; and
- 10) unaccompanied youths:
 - a. are enrolled in school;
 - b. have opportunities to meet the same challenging state academic standards as Kansas establishes for other children and youth; and
 - c. are informed of their status as independent students under federal law regarding student financial assistance for higher education acquisition and that the youths may obtain assistance from the district homeless student liaison to receive

verification of such status for purposes of the Free Application for Federal Student Aid.

The liaison shall also work with the state coordinator for education of homeless children and youth to request and receive needed technical assistance and monitoring to ensure the district complies with federal and state law regarding homeless students. Similarly, the liaison will coordinate with the state coordinator in order to provide professional development opportunities for district personnel to aid them in identifying and meeting the needs of homeless children and youths and will respond to inquiries from parents, guardians, and homeless children and youths to ensure they are provided with the full protection of the law and services they are due.

Notice

The district shall inform school personnel, service providers, advocates working with homeless families, parents and guardians of homeless children and youths, and homeless children and youths of the duties of the district homeless student liaison, and publish annually updated contact information for the liaison on the district's website.

Local and State Coordination

The district homeless student liaison, as a part of assigned duties, shall coordinate and collaborate with state coordinators, the community, and school personnel responsible for the provision of education and related services to homeless children and youths. Such coordination shall include collecting and providing to the state coordinator the reliable, valid, and comprehensive data.

Homeless Status

The district homeless student liaison may affirm, without further agency action by the Department of Housing and Urban Development, that a child or youth who is eligible for and participating in a program provided by the district, or the immediate family of such a child or youth, who meets the eligibility requirements, is eligible for such program or service.

Dispute Resolution Process

A complaint regarding the placement or education of a homeless child or youth shall first be presented orally and informally to the district's homeless student liaison. If the complaint is not promptly resolved, the complainant may present a formal written complaint (grievance) to the homeless student liaison. The written complaint must include the following information: date of filing, description of concerns, the name of the person or persons involved, and a recapitulation of the action taken during the informal charge stage. Within five (5) working days after receiving the complaint, the liaison shall state a decision in writing to the complainant, with supporting evidence and reasons. In addition, the liaison will inform the superintendent of the formal complaint and the disposition.

Transportation

If it is in the best interest of the homeless child or youth to attend the school of origin, transportation to and from that school will be provided at the request of the parent or guardian or, in the case of an unaccompanied youth, the homeless coordinator. If the student's temporary housing is outside the attendance area of the school of origin, then the district will work with the school of origin to agree on a method to apportion the responsibility and costs for transporting the child. If an agreement cannot be reached, the costs will be shared equally.

Exhibit VIII Foster Care Student Regulations

The Every Student Succeeds Act (“ESSA”) addresses additional protections for students in foster care and establishes a system of joint responsibility for school districts, the Kansas State Department of Education (“KSDE”), and the Kansas Department for Children and Families (“DCF”) to ensure the educational stability of students in foster care.

For the purposes of these regulations, “foster care” means 24-hour substitute care for children placed away from their parents and for whom a child welfare agency has placement and care duties. This includes, but is not limited to, placements in foster family homes, foster homes of relatives, group homes, emergency shelters, residential facilities, child-care institutions, and pre-adoptive homes.

Transportation of Students in Foster Care

ESSA requires each Kansas school district to collaborate with child welfare agencies, such as DCF and tribal child welfare agencies, to develop and implement clear, written procedures for how transportation to maintain a student in foster care in his or her school of origin (when in the student’s best interest) will be provided, arranged, and funded. The procedures must ensure that the transportation will be provided promptly, in a cost-effective manner, and in accordance with federal law. Also, they must address how additional costs will be absorbed. Therefore, if there are any additional costs incurred to maintain a foster care student in his or her school of origin, the district will provide the transportation if:

1. DCF agrees to reimburse the district for the additional costs;
2. The district agrees to pay the additional costs; or
3. DCF and the district split the additional costs.

Upon request, the district will provide an assurance to KSDE that the district has transportation procedures meeting the above requirements.

Additional Costs

“Additional costs” reflect the difference between what the district would spend to transport a student to the assigned school and the cost of transporting a student in foster care to his or her school of origin. Title I, Part A funds may be used to pay for additional transportation costs in Title I districts.

School of Origin

The “school of origin” is the school in which a student is enrolled at the time of placement in foster care or of a change in placement. A student in foster care is entitled to remain enrolled in his or her school of origin unless it is determined not to be in the student’s best interest to stay at that school.

Best-Interest Determination

DCF will make the final decision regarding whether it is in a student’s best interest to remain in the school of origin. District staff may be asked to provide information on the “educational best interest” of the student to support educational decision-making based on what is best for the student academically. For students receiving special education and related services under the Individual with Disabilities Education Act or for students on Section 504 accommodation plans, it is recommended that relevant team members should be consulted in the best interest determination process, as the district will still be required to ensure compliance with Least Restrictive Environment requirements.

The United States Department of Education has provided a list of factors that may be considered in determining the student’s educational best interest, which include appropriateness of the current setting, proximity of placement to school attendance centers, the child’s preference, the parents’ preference, the child’s attachment to the school of origin, where siblings will be placed, and the availability of needed services. The “best-interest determination” may not be made based on transportation costs or funding.

District Foster Care Liaison

The “district foster care liaison” is a district employee who facilitates the enrollment in or transfer to a public school of a student in the district who is a ward of the state. The district’s foster care liaison is considered the designated point of contact for collaboration with DCF on transportation procedures.

The District has designated the following staff person as the District foster care liaison:

Position: Associate Superintendent for Teaching and Learning
E-mail: kduling@usd266.com
Address: 905 W. Academy Ave., Maize, KS 67101
Telephone: (316) 722-0614

Child Welfare Agency

In Kansas, DCF is the regular child welfare agency for collaboration on transportation procedures. The Child Protective Services (“CPS”) division of DCF will typically be the division that works with the district on issues related to students in foster care, however, tribal child welfare agencies may also be involved with this process. Therefore, whenever DCF is used in these regulations, it may be deemed to apply to any child welfare agency based on the circumstances.

Child Welfare Contact

The district, if receiving Title I, Part A funds, must collaborate on transportation procedures with the DCF-designated contact if DCF notifies the district in writing that DCF has designated an employee to serve as a point of contact for the district.
